SUBJECT INDEX*

Book reviews are indicated by *(B. Rev.)*; editorials by *(E.)*.

A

Acid-peptic factor; physiologic basis of operations for ulcer (Mayo, Jr.), 270
Acidity, gastric, relationship of, to gastric and extragastric neoplasms (Niazi et al.), 131
Afferent jejunal loop, relation of length of, to incidence of jejunal ulcer; physiologic basis of operations for ulcer (Mayo, Jr.), 303
Alimentation, jejunal, observations in (Case et al.), 364
Alkalosis, hypochloremic; potassium deficiency in surgical patients (Randall et al.), 352
Amine, new quaternary, and new imidazoline derivative, effects of, on autonomic nervous system (Longino et al.), 421
Amputation, mammaplastic substitute for, in hypertrophies (Maliniac), 573
  prognosis with respect to; study of patients with thromboangiitis obliterans (Campbell et al.), 1006
  treatment of malignant tumors in thigh; hemipelvectomy (Ravitch), 199
Analgesia and anesthesia, obstetric, 722 *(B. Rev.)*
Anastomosis, portacaval, for portal hypertension (Blakemore), 99
  successful esophageal, principles affecting (McNeer), 590
  and survival, primary resection of gangrenous ileum with, in nineteen-day-old infant (Baronofsky and Nelson), 146
Anatomic and clinical study; ligament of Treitz as barrier to intestinal intubation (Cantor), 673
Anatomy of nerves supplying common duct and proximal duodenum (Royster et al.), 413
  and physiology; physiologic basis of operations for ulcer (Mayo, Jr.), 253
Anesthesia and analgesia, obstetric, 722 *(B. Rev.)*
Aneurysm, arteriosclerotic popliteal (Linton), 41
Aneurysmectomy and lumbar sympathetic ganglionectomy; arteriosclerotic popliteal aneurysm (Linton), 41
Angiostomy, new technique and guide for (Dale), 810
Anlage, origin, mixed tumors of (Halpert), 1046 *(E.)*
Announcements, 160, 721
Anticoagulant therapy, complications of (Lilly and Lee), 957
Apparatus, drainage cup, original, for ileostomies and fistulas (Bellinger), 837
Arterioles, pulmonary, and capillaries, experimental embolism of (Griffin, Jr., and Essex), 707
Arteriosclerotic peripheral vascular disease, far-advanced, early results of sympathectomy in (Coller et al.), 30
  popliteal aneurysm (Linton), 41
Arteriosus, patent ductus, technique for division and suture of, in older age group (Freeman et al.), 103
Arteriovenous fistulas, cardiac frontal area in patients with, study of (Shumacker, Jr., and Stahl), 928
  collateral circulation after excision of (Bosher, Jr., et al.), 918
    in presence of; dynamics of blood flow (Holman), 889
Artery, large, factors affecting diameter of, with particular reference to traumatic spasm (Kinmonth et al.), 452
  use of vein grafts to replace defects of (Johnson et al.), 945
  ligation of, collateral circulation in presence of arteriovenous fistula following; dynamics of blood flow (Holman), 889
  major, complications resulting from injuries to (Herrmann and Buchman), 59
Artificial kidney, clinical experiences with (Ripstein et al.), 229
Atlas of roentgenographic positions, 887 *(B. Rev.)*
Auricular wall, resection of segments of (Brunschwig and Robbins), 612
Autonomic nervous system, effects of new quaternary amine and new imidazoline derivative on (Longino et al.), 421

B

Bacilli, gram-negative, sulfamethazine in treatment of urinary infections due to (Rutenburg and Schweinburg), 215
Bacillus paratyphosus A (Salmonella paratyphi), osteomyelitis caused by (Ludwig), 139

*July, pp. 1-160; August, pp. 161-330; September, pp. 331-566; October, pp. 567-726; November, pp. 727-888; December, pp. 889-1064.

Bacitracin, nephrotoxicity of, in man (Michie et al.), 626
Barium sulfate, embolism with, in dogs; experimental embolism of pulmonary arterioles and capillaries (Griffin, Jr., and Essex), 714
Biliary fistulas, spontaneous external (Henry and Orr, Jr.), 641
Biologic pressure variables, impedance gauging system for measurement of (Schafer and Shirer), 446
Birth, normal, following pneumonectomy for pulmonary tuberculosis in woman six months pregnant (Thompson and Bressler), 242
"Block" technique, search for experimental membrane suitable for use in; tendon repair within flexor tunnels (Gonzalez), 190
Blood chemistry, effect on; clinical experiences with artificial kidney (Ripstein et al.), 231
flow, dynamics of, problems in (Holman), 889
effect of rate of cardiac compression on; cardiac massage (Johnson and Kirby), 474
pressure records; diameter of large arteries and traumatic spasm (Kinmonth et al.), 454
stream, pathways of enzymes into; acute pancreatitis (Howard et al.), 161
substitute, quest for (Ravdin), 705 *(E.)*
Books received, 722-726
Book reviews, 722-726; 887-888
Breast, carcinoma of, local excision or simple mastectomy prior to radical mastectomy for, implications of (Lockhart and Ackerman), 577
hemangioma of (Madding and Hershberger), 685
British American exchange fellowships in cancer research, announcement, 160
surgical practice, 888 *(B. Rev.)*
Bronchus, split anterior and cleft left upper lobes (Boyden), 167
Buerger's disease (thromboangiitis obliterans), study of patients with (Campbell et al.), 1003
Burns, local pathology of, study of effect of heparin on (McCleery et al.), 548

C

Calculosis and fibrosis of pancreas (Bogle), 244
Caloric intake, influence of, upon fate of parenteral nitrogen (Ellison et al.), 374
Cancer, advanced mammary, treatment of, with estrogens (Cutler et al.), 567
gastric, evaluation of electrogastrography in diagnosis of (Sawyer et al.), 479
of rectum (Bacon), 584
research, British American exchange fellowships in, announcement, 160
Capillaries and pulmonary arterioles, experimental embolism of (Griffin, Jr., and Essex), 707
Carcinoma of breast, local excision or simple mastectomy prior to radical mastectomy for, implications of (Lockhart and Ackerman), 577
of colon, operative management of (Gunkler and Pearse), 499
Cardiac denervation, unilateral sympathetic, effect of; human heart rate (Smithwick et al.), 737
frontal area in patients with arteriovenous fistulas, study of (Shumacker, Jr., and Stahl), 928
massage, experimental study of (Johnson and Kirby), 472
resuscitation by, stab wound of heart followed by temporary cessation of heartbeat with (Löken et al.), 745
Cardiovascular system, effects of new quaternary amine and imidazoline derivative upon (Longino et al.), 429
Cellulose, oxidized, and gelatin hemostatic agents in experimentally contaminated renal wounds, local reaction to (Hinman, Jr., and Babcock), 633
Cholecystitis, acute, studies in (I) (Dunphy and Ross), 539
Chondrosarcoma, huge, of rib (Davis et al.), 699
Chordee, correction of; repair of hypospadias with free inlay skin graft (Young and Benjamin), 390
Circulation, collateral, after excision of arteriovenous fistulas (Bosher, Jr., et al.), 918
in presence of arteriovenous fistula; dynamics of blood flow (Holman), 889
Cleft left upper lobes and split anterior bronchus (Boyden), 167
Clinical and anatomic study; ligament of Treitz as barrier to intestinal intubation (Cantor), 673
experiences with artificial kidney (Ripstein et al.), 229
and experimental use of vein grafts to replace defects of large arteries (Johnson et al.), 945
Closure, delayed primary, of contaminated wounds (Morris and Martin), 616
Colon, carcinoma of, operative management of (Gunkler and Pearse), 499
Common duct and proximal duodenum, anatomy of nerves supplying (Royster et al.), 413
Compounds of zirconium for x-ray media (Hunter et al.), 682
Contaminated renal wounds, experimentally, local reaction to oxidized cellulose and gelatin hemostatic agents in (Hinman, Jr., and Babcock), 633
wounds, delayed primary closure of (Morris and Martin), 616

Control, inadequate, simple method of; venous and lymphatic stasis in lower extremities (Scott and Radakovich), 970
Controlling urinary incontinence, method for (Swenson et al.), 405
Conversion, rate of, of administered inorganic radioactive iodine into protein-bound iodine of plasma as aid in evaluation of thyroid function (Clark et al.), 331
Corticoadrenal factor in hypertension (de Takats), 67
Cotton as suture material in urologic surgery (Smith and Weaver), 827

D

Deficiency, potassium, in surgical patients (Randall et al.), 341
Delayed primary closure of contaminated wounds (Morris and Martin), 616
Derivative, new imidazoline, and new quaternary amine, effects of, on autonomic nervous system (Longino et al.), 421
Dermis, destroyed and viable; effect of heparin on local pathology of burns (McCleery et al.), 550
Diagnosis of gastric cancer, evaluation of electrogastrography in (Sawyer et al.), 479
Diameter of large arteries, factors affecting, with particular reference to traumatic spasm (Kinmonth et al.), 452
Dibenamine, Priscol, and Etamon, sympatholytic effects of, in dogs with results of actual sympathectomy (Marzoni et al.), 117
Dicumarol; complications of anticoagulant therapy (Lilly and Lee), 957
Digestion, acid-peptic, diminished tissue resistance to; physiologic basis of operations for ulcer (Mayo, Jr.), 283
Disabilities of knee (Buirge), 770
Disease, Buerger's (thromboangiitis obliterans), study of patients with (Campbell et al.), 1003
far-advanced arteriosclerotic peripheral vascular, early results of sympathectomy in (Coller et al.), 30
hypertensive vascular, associated with quadrilateral Raynaud's disease treated by total sympathectomy (Leinwand et al.), 1034
neoplastic, excision of mandible for (Slaughter et al.), 507
Raynaud's, sympathetic neurectomy in, evaluation of (Felder et al.), 1014
Whipple's, or intestinal lipodystrophy (Copland et al.), 688
Diverticulum, giant pharyngoesophageal (Mino et al.), 237
Division and suture of patent ductus arteriosus in older age group, technique for (Freeman et al.), 103
Dog, Mann-Williamson, hormone preparations in treatment of (Sandweiss and Saltzstein), 647
respirator for use in intrathoracic surgery in (Gunkler and Mahoney), 821
sympatholytic effects of Priscol, Etamon, and Dibenamine in, with results of actual sympathectomy (Marzoni et al.), 117
use of polyethylene tubes for improvement of functional results in; experimental tendon repair within flexor tunnels (Gonzalez), 181
Drainage cup apparatus, original, for ileostomies and fistulas (Bellinger), 837
proximal, of unobstructed colon; operative management of carcinoma of colon (Gunkler and Pearse), 499
Duct, common, and proximal duodenum, anatomy of nerves supplying (Royster et al.), 413
thoracic, variations of (Van Pernis), 806
Duodenal, gastric, and gastrojejunal ulcer, physiologic basis of operations for (Mayo, Jr.), 251
Duodenum, proximal, and common duct, anatomy of nerves supplying (Royster et al.), 413

E

Editorials, 705, 861, 1046
Electrical stimulation of leg muscles, prevention of venous thrombosis and pulmonary embolism by (Tichy), 109
Electrogastrography, evaluation of, in diagnosis of gastric cancer (Sawyer et al.), 479
Electrolyte values, normal; potassium deficiency in surgical patients (Randall et al.), 346
Embolism, experimental, of pulmonary arterioles and capillaries (Griffin, Jr., and Essex), 707
pulmonary, and venous thrombosis, prevention of, by electrical stimulation of leg muscles (Tichy), 109
prophylaxis and treatment of (Allen), 1
Enzymes, pathways of, into blood stream; acute pancreatitis (Howard et al.), 161
Esophageal anastomosis, successful, principles affecting (McNeer), 590
Estrogens, treatment of advanced mammary cancer with (Cutler et al.), 567
Etamon, Priscol, and Dibenamine, sympatholytic effects of, in dogs with results of actual sympathectomy (Marzoni et al.), 117
Excision of arteriovenous fistulas, collateral circulation after (Bosher, Jr., et al.), 918
local, or simple mastectomy prior to radical mastectomy for carcinoma of breast, implications of (Lockhart and Ackerman), 577
of mandible for neoplastic disease (Slaughter et al.), 507

Experimental and clinical use of vein grafts to replace defects of large arteries (Johnson et al.), 945
Extragastric and gastric neoplasms, relationship of gastric acidity to (Niazi et al.), 131
Extremities, lower, venous and lymphatic stasis in (Scott and Radakovich), 970
normal, varicose, and postphlebitic, venous pressures in saphenous system in (Warren et al.), 435
sympathetic neurectomy in Raynaud's disease (Felder et al.), 1015

F

Feeding, frequent sham, production of lesions of gastroduodenal mucosa by (Fainer et al.), 816
Fellowships, in cancer research, British American exchange, announcement, 160
Femoral hernia, Henry approach to (Musgrove and McCready), 608
vein ligation, alterations following; venous pressures in saphenous system in normal, varicose, and postphlebitic extremities (Warren et al.), 435
Fertility, impaired, and sterility, 887 *(B. Rev.)*
Fibrosis and calculosis of pancreas (Bogle), 244
Finger, trigger, produced by excessive heat (Engel), 659
Fistula, arteriovenous, cardiac frontal area in patients with, study of (Shumacker, Jr., and Stahl), 928
collateral circulation after excision of (Bosher, Jr., et al.), 918
in presence of; dynamics of blood flow (Holman), 889
biliary, spontaneous external (Henry and Orr, Jr.), 641
and ileostomies, original drainage cup apparatus for (Bellinger), 837
Flexor tunnels, experimental tendon repair within: use of polyethylene tubes for improvement of functional results in dog (Gonzalez), 181
Fractures, old united and ununited, of patella (Paschall, Jr., et al.), 777
Frontal area, cardiac, in patients with arteriovenous fistulas, study of (Shumacker, Jr., and Stahl), 928

G

Ganglion, stellate, in operation; sympathetic neurectomy in Raynaud's disease (Felder et al.), 1019
Ganglionectomy, lumbar sympathetic, and aneurysmectomy; arteriosclerotic popliteal aneurysm (Linton), 41
Gangrene and phlegmasia cerulea dolens associated with thrombophlebitis (DeBakey and Ochsner), 16
Gangrenous ileum, primary resection of, with anastomosis and survival in nineteen-day-old infant (Baronofsky and Nelson), 146
Gastrectomy, total (Scott, Jr., and Longmire, Jr.), 488
Gastric acidity, relationship of, to gastric and extragastric neoplasms (Niazi et al.), 131
cancer, evaluation of electrogastrography in diagnosis of (Sawyer et al.), 479
duodenal, and gastrojejunal ulcer, physiologic basis of operations for (Mayo, Jr.), 251
Gastroduodenal mucosa, production of lesions of, by frequent sham feeding (Fainer et al.), 816
Gastrointestinal hemorrhage, unusual case of (Burnett et al.), 1044
tract, effects of new quaternary amine and imidazoline derivative upon (Longino et al.), 431
Gastrojejunal, duodenal, and gastric ulcer, physiologic basis of operations for (Mayo, Jr.), 251
Gastrostomy wounds, healing of; wound healing and heparin (Bendix and Necheles), 802
Gauging system, impedance, for measurement of biologic pressure variables (Schafer and Shirer), 446
Gelatin hemostatic agents and oxidized cellulose in experimentally contaminated renal wounds, local reaction to (Hinman, Jr., and Babcock), 633
Giant pharyngoesophageal diverticulum (Mino et al.), 237
Glandular dissection, regional, local excision plus; quarterectomy in malignant melanoma (Bowers), 527
Graft, free inlay skin, preschool age repair of hypospadias with (Young and Benjamin), 384
vein, use of, to replace defects of large arteries (Johnson et al.), 945
Gram-negative bacilli, sulfamethazine in treatment of urinary infections due to (Rutenburg and Schweinburg), 215

H

Healing, wound, and heparin, using heparin deposits (Bendix and Necheles), 799
Heart rate, human (Smithwick et al.), 727
revascularization of (Beck), 82
stab wound of, followed by temporary cessation of heartbeat with resuscitation by cardiac massage (Löken et al.), 745
Heartbeat, temporary cessation of, with resuscitation by cardiac massage, stab wound of heart followed by (Löken et al.), 745
Heat, excessive, trigger finger produced by (Engel), 659
Hemangioma of breast (Madding and Hershberger), 685

Hemipelvectomy (Ravitch), 199
Hemorrhage, gastrointestinal, unusual case of (Burnett et al.), 1044
primary; complications from injuries to major arteries (Herrmann and Buchman), 60
Hemostatic agents, gelatin, and oxidized cellulose in experimentally contaminated renal wounds, local reaction to (Hinman, Jr., and Babcock), 633
starch sponge (Rosenfeld), 842
Henry approach to femoral hernia (Musgrove and McCready), 608
Heparin, study of effect of, on local pathology of burns (McCleery et al.), 548
and wound healing, using heparin deposits (Bendix and Necheles), 799
Hernia, femoral, Henry approach to (Musgrove and McCready), 608
traumatic iliac, with extensive soft tissue loss (Lewin and Bradley), 601
Hormone preparations in treatment of Mann-Williamson dogs (Sandweiss and Saltzstein), 647
Human heart rate (Smithwick et al.), 727
Hyperhidrosis (Veal and Shadid), 89
Hypertension, corticoadrenal factor in (de Takats), 67
portal, portacaval anastomosis for (Blakemore), 99
Hypertensive vascular disease associated with quadrilateral Raynaud's disease treated by total sympathectomy (Leinwand et al.), 1034
Hypertrophies, mammaplastic substitute for amputation in (Maliniac), 573
Hypochloremic alkalosis; potassium deficiency in surgical patients (Randall et al.), 352
Hypospadias, preschool age repair of, with free inlay skin graft (Young and Benjamin), 384

I

Ileostomies and fistulas, original drainage cup apparatus for (Bellinger), 837
Ileum, gangrenous, primary resection of, with anastomosis and survival in nineteen-day-old infant (Baronofsky and Nelson), 146
Iliac hernia, traumatic, with extensive soft tissue loss (Lewin and Bradley), 601
Ilium, osteoplastic mobilization of (Bruecke and Moser), 653
Imidazoline derivative, new, and new quaternary amine, effects of, on autonomic nervous system (Longino et al.), 421
Impedance gauging system for measurement of biologic pressure variables (Schafer and Shirer), 446
Incontinence, urinary, method for controlling (Swenson et al.), 405
Infant, nineteen-day-old, primary resection of gangrenous ileum with anastomosis and survival in (Baronofsky and Nelson), 146
Infections, established wound, streptomycin therapy in (Pulaski and Connell, Jr.), 622
surgical, clinical aspects and treatment of, 887 *(B. Rev.)*
urinary, due to gram-negative bacilli, sulfamethazine in treatment of (Rutenburg and Schweinburg), 215
Injuries to major arteries, complications resulting from (Herrmann and Buchman), 59
Inlay skin graft, free, preschool age repair of hypospadias with (Young and Benjamin), 384
Inorganic radioactive iodine, administered, rate of conversion of, into protein-bound iodine of plasma as aid in evaluation of thyroid function (Clark et al.), 331
Intake, caloric, influence of, upon fate of parenteral nitrogen (Ellison et al.), 374
Interruptions, surgical, at various levels; management of recovery from venous thrombosis in lower limbs (Homans), 8
Intestinal intubation, ligament of Treitz as barrier to (Cantor), 673
lipodystrophy or Whipple's disease (Copland et al.), 688
Intrathoracic neurofibroma, solitary (Touroff and Sapin), 787
surgery in dog, respirator for use in (Gunkler and Mahoney), 821
Intubation, intestinal, ligament of Treitz as barrier to (Cantor), 673
Intussusception, jejunal (Dunn and Shearburn), 833
Iodine, administered inorganic radioactive, rate of conversion of, into protein-bound iodine of plasma as aid in evaluation of thyroid function (Clark et al.), 331

J

Jejunal alimentation, observations in (Case et al.), 364
intussusception (Dunn and Shearburn), 833
ulcer; physiologic basis of operations for ulcer (Mayo, Jr.), 300

K

Kidney, artificial, clinical experiences with (Ripstein et al.), 229
Knee, disabilities of (Buirge), 770

L

Leg muscles, electrical stimulation of, prevention of venous thrombosis and pulmonary embolism by (Tichy), 109

Lesions of gastroduodenal mucosa, production of, by frequent sham feeding (Fainer et al.), 816
Ligament of Treitz as barrier to intestinal intubation (Cantor), 673
Ligation of artery, collateral circulation in presence of arteriovenous fistula following; dynamics of blood flow (Holman), 889
Limbs, lower, venous thrombosis in, management of recovery from (Homans), 8
Lipodystrophy, intestinal, or Whipple's disease (Copland et al.), 688
Lobes, cleft left upper, and split anterior bronchus (Boyden), 167
Local reaction to oxidized cellulose and gelatin hemostatic agents in experimentally contaminated renal wounds (Hinman, Jr., and Babcock), 633
Loop, afferent jejunal, relation of length of, to incidence of jejunal ulcer; physiologic basis of operations for ulcer (Mayo, Jr.), 303
Lumbar sympathetic ganglionectomy and aneurysmectomy; arteriosclerotic popliteal aneurysm (Linton), 41
Lymphatic and venous stasis in lower extremities (Scott and Radakovich), 970

M

Malignant melanoma, application of quarterectomy in (Bowers), 523
neoplasms of thyroid (Lange and Maclean), 862
tumors of pelvic girdle; hemipelvectomy (Ravitch), 199
Mammaplastic substitute for amputation in hypertrophies (Maliniac), 573
Mammary cancer, advanced, treatment of, with estrogens (Cutler et al.), 567
Mandible, excision of, for neoplastic disease (Slaughter et al.), 507
Mann-Williamson dogs, hormone preparations in treatment of (Sandweiss and Saltzstein), 647
Massage, cardiac, experimental study of (Johnson and Kirby), 472
resuscitation by, stab wound of heart followed by temporary cessation of heartbeat with (Löken et al.), 745
Mastectomy, simple, or local excision prior to radical mastectomy for carcinoma of breast, implications of (Lockhart and Ackerman), 577
Measurement of biologic pressure variables, impedance gauging system for (Schafer and Shirer), 446
of cardiac frontal area, in patients with arteriovenous fistulas (Shumacker, Jr., and Stahl), 931
Mechanical (traumatic) factor; physiologic basis of operations for ulcer (Mayo, Jr.), 282
Meconium peritonitis (Low et al.), 223
Meetings, recent, review of, 565
Melanoma, malignant, application of quarterectomy in (Bowers), 523
Meniscectomy, selection and preparation of patients for; disabilities of knee (Buirge), 771
Miller-Abbott tube, unusual complication of use of; jejunal intussusception (Dunn and Shearburn), 833
Mobilization, osteoplastic, of ilium (Bruecke and Moser), 653
Mortality, operative, operations without; principles affecting successful esophageal anastomosis (McNeer), 590
Motor physiology of stomach; physiologic basis of operations for ulcer (Mayo, Jr.), 268
Mucosa, gastroduodenal, production of lesions of, by frequent sham feeding (Fainer et al.), 816
Muscles, leg, electrical stimulation of, prevention of venous thrombosis and pulmonary embolism by (Tichy), 109
Myasthenia gravis, thymectomy for (Clagett et al.), 852

N

Necrosis and radiodermatitis (Cronin and Brauer), 665
Neoplasms, gastric and extragastric, relationship of gastric acidity to (Niazi et al.), 131
malignant, of thyroid (Lange and Maclean), 862
Neoplastic disease, excision of mandible for (Slaughter et al.), 507
Nephrotoxicity of bacitracin in man (Michie et al.), 626
Nerves, anatomy of, supplying common duct and proximal duodenum (Royster et al.), 413
surgery, peripheral, tension on suture line in (Cliffton), 756
Nervous system, autonomic, effects of new quaternary amine and new imidazoline derivative on (Longino et al.), 421
sympathetic, effect of removing portions of; human heart rate (Smithwick et al.), 727
Neurectomy, sympathetic, in Raynaud's disease, evaluation of (Felder et al.), 1014
Neurofibroma, solitary intrathoracic (Touroff and Sapin), 787
Neurogenic factor; physiologic basis of operations for ulcer (Mayo, Jr.), 286
Nitrogen, parenteral, fate of, influence of caloric intake upon (Ellison et al.), 374

O

Obstetric analgesia and anesthesia, 722 (*B. Rev.*)
Older age group, technique for division and suture of patent ductus arteriosus in (Freeman et al.), 103

Operative management of carcinoma of colon (Gunkler and Pearse), 499
mortality, operations without; principles affecting successful esophageal anastomosis (McNeer), 590
technique; hemipelvectomy (Ravitch), 199
total gastrectomy (Scott, Jr., and Longmire, Jr.), 488
Osteomyelitis caused by Salmonella paratyphi (Bacillus paratyphosus A) (Ludwig), 139
Osteoplastic mobilization of ilium (Bruecke and Moser), 653
Oxidized cellulose and gelatin hemostatic agents in experimentally contaminated renal wounds, local reaction to (Hinman, Jr., and Babcock), 633

P

Pancreas, calculosis and fibrosis of (Bogle), 244
Pancreatitis, acute: pathways of enzymes into blood stream (Howard et al.), 161
Parenteral nitrogen, fate of, influence of caloric intake upon (Ellison et al.), 374
Patella, old united and ununited fractures of (Paschall, Jr., et al.), 777
Pathology, local, of burns, study of effect of heparin on (McCleery et al.), 548
Pelvis, true, new operative approach to interior of; osteoplastic mobilization of ilium (Bruecke and Moser), 653
Peptic ulcer, etiology of; physiologic basis of operations for ulcer (Mayo, Jr.), 269
Perforating veins, test for incompetence in; venous and lymphatic stasis in lower extremities (Scott and Radakovich), 970
Peripheral nerve surgery, tension on suture line in (Cliffton), 756
vascular disease, far-advanced arteriosclerotic, early results of sympathectomy in (Coller et al.), 30
Peritonitis, meconium (Low et al.), 223
Pharyngoesophageal diverticulum, giant (Mino et al.), 237
Phlebitis, superficial migratory; study of patients with thromboangiitis obliterans (Campbell et al.), 1005
Phlegmasia cerulea dolens and gangrene associated with thrombophlebitis (DeBakey and Ochsner), 16
Physiologic basis of operations for duodenal, gastric, and gastrojejunal ulcer (Mayo, Jr.), 251
Plasma, protein-bound iodine of, rate of conversion of administered inorganic radioactive iodine into, as aid in evaluation of thyroid function (Clark et al.), 331
Pneumonectomy for pulmonary tuberculosis in woman six months pregnant, followed by normal birth (Thompson and Bressler), 242
Polyethylene tubes, use of, for improvement of functional results in dog; experimental tendon repair within flexor tunnels (Gonzalez), 181
Popliteal aneurysm, arteriosclerotic (Linton), 41
Portacaval anastomosis for portal hypertension (Blakemore), 99
Positions, roentgenographic, atlas of, 887 *(B. Rev.)*
Postoperative management; total gastrectomy (Scott, Jr., and Longmire, Jr.), 489
Postphlebitic, normal, and varicose extremities, venous pressures in saphenous system in (Warren et al.), 435
Potassium deficiency in surgical patients (Randall et al.), 341
Pregnant, woman six months, pneumonectomy for pulmonary tuberculosis in, followed by normal birth (Thompson and Bressler), 242
Preschool age repair of hypospadias with free inlay skin graft (Young and Benjamin), 384
Pressure test, walking venous, as method of evaluation of varicose veins (White and Warren), 987
variables, biologic, impedance gauging system for measurement of (Shafer and Shirer), 446
Priscol, Etamon, and Dibenamine, sympatholytic effects of, in dogs with results of actual sympathectomy (Marzoni et al.), 117
Prophylaxis and treatment of venous thrombosis and pulmonary embolism (Allen), 1
Protein-bound iodine of plasma, rate of conversion of administered inorganic radioactive iodine into, as aid in evaluation of thyroid function (Clark et al.), 331
Pulmonary arterioles and capillaries, experimental embolism of (Griffin, Jr., and Essex), 707
embolism and venous thrombosis, prevention of, by electrical stimulation of leg muscles (Tichy), 109
prophylaxis and treatment of (Allen), 1
tuberculosis, pneumonectomy for, in woman six months pregnant, followed by normal birth (Thompson and Bressler), 242

Q

Quarterectomy—its application in malignant melanoma (Bowers), 523

R

Radical mastectomy, local excision or simple mastectomy proir to, for carcinoma of breast, implications of (Lockhart and Ackerman), 577

Radioactive iodine, administered inorganic, rate of conversion of, into protein-bound iodine of plasma as aid in evaluation of thyroid function (Clark et al.), 331
Radiodermatitis and necrosis (Cronin and Brauer), 665
Raynaud's disease, quadrilateral, hypertensive vascular disease associated with, treated by total sympathectomy (Leinwand et al.), 1034
sympathetic neurectomy in, evaluation of (Felder et al.), 1014
Reaction, local, to oxidized cellulose and gelatin hemostatic agents in experimentally contaminated renal wounds (Hinman, Jr., and Babcock), 633
Rectum, cancer of (Bacon), 584
Renal wounds, experimentally contaminated, local reaction to oxidized cellulose and gelatin hemostatic agents in (Hinman, Jr., and Babcock), 633
Repair, experimental tendon, within flexor tunnels: use of polyethylene tubes for improvement of functional results in dog (Gonzalez), 181
preschool age, of hypospadias with free inlay skin graft (Young and Benjamin), 384
Resection, combined neck and jaw, technique of; excision of mandible for neoplastic disease (Slaughter et al.), 517
gastric, incidence of jejunal ulcer after; physiologic basis of operations for ulcer (Mayo, Jr.), 302
primary, of gangrenous ileum with anastomosis and survival in nineteen-day-old infant (Baronofsky and Nelson), 146
of segments of auricular wall (Brunschwig and Robbins), 612
Respirator for use in intrathoracic surgery in dog (Gunkler and Mahoney), 821
Resuscitation by cardiac massage, stab wound of heart followed by temporary cessation of heartbeat with (Löken et al.), 745
Retroperitoneal spaces, lateral, primary teratomas of (Palumbo et al.), 149
Revascularization of heart (Beck), 82
Review of recent meetings, 565
Rib, huge chondrosarcoma of (Davis et al.), 699
Roentgenographic positions, atlas of, 887 *(B. Rev.)*

S

Salmonella paratyphi (Bacillus paratyphosus A), osteomyelitis caused by (Ludwig), 139
Saphenous system, venous pressures in, in normal, varicose, and postphlebitic extremities (Warren et al.), 435
varices, pure; walking venous pressure test as method of evaluation of varicose veins (White and Warren), 988
Sarcoma, primary splenic (Campbell and Lubchenco), 847
Secretin factor, physiologic basis of operations for ulcer (Mayo, Jr.), 307
Secretion, gastric; physiologic basis of operations for ulcer (Mayo, Jr.), 255
Sensitivity factor; physiologic basis of operations for ulcer (Mayo, Jr.), 311
Sham feeding, frequent, production of lesions of gastroduodenal mucosa by (Fainer et al.), 816
Sinus, arterialization of; revascularization of heart (Beck), 83
Skin graft, free inlay, preschool age repair of hypospadias with (Young and Benjamin), 384
Society of University Surgeons, 331-566
meeting of (Shumacker, Jr.), 565
for Vascular Surgery, 1-108; 889-1043
Solitary intrathoracic neurofibroma (Touroff and Sapin), 787
Spasm, traumatic, factors affecting diameter of large arteries with particular reference to (Kinmonth et al.), 452
Spatial factor; physiologic basis of operations for ulcer (Mayo, Jr.), 309
Specialization, further (Ravdin), 861 *(E.)*
Splenic sarcoma, primary (Campbell and Lubchenco), 847
Split anterior bronchus and cleft left upper lobes (Boyden), 167
Sponge, starch—hemostatic agent (Rosenfeld), 842
Spontaneous external biliary fistulas (Henry and Orr, Jr.), 641
Stab wound of heart followed by temporary cessation of heartbeat with resuscitation by cardiac massage (Löken et al.), 745
Starch, embolism with, in rabbits and dogs; experimental embolism of pulmonary arterioles and capillaries (Griffin, Jr., and Essex), 711
sponge—hemostatic agent (Rosenfeld), 842
Stasis, venous and lymphatic, in lower extremities (Scott and Radakovich), 970
Sterility and impaired fertility, 887 *(B. Rev.)*
Stomach, motor physiology of; physiologic basis of operations for ulcer (Mayo, Jr.), 268
Streptomycin therapy in established wound infections (Pulaski and Connell, Jr.), 622
Substitute, "blood," quest for (Ravdin), 705 *(E.)*
Sulfamethazine in treatment of urinary infections due to gram-negative bacilli (Rutenburg and Schweinburg), 215
Sulfate, barium embolism with, in dogs; experimental embolism of pulmonary arterioles and capillaries (Griffin, Jr., and Essex), 714
Surgeons, University, meeting of Society of (Shumacker, Jr.), 565

Surgery, intrathoracic in dog, respirator for use in (Gunkler and Mahoney), 821
peripheral nerve, tension on suture line in (Cliffton), 756
urologic, cotton as suture material in (Smith and Weaver), 827
Surgical infections, clinical aspects and treatment of, 887 *(B. Rev.)*
management and results (I); studies in acute cholecystitis (Dunphy and Ross), 539
patients, potassium deficiency in (Randall et al.), 341
practice, British, 888 *(B. Rev.)*
technique; thymectomy for myasthenia gravis (Clagett et al.), 852
Suture and division of patent ductus arteriosus in older age group, technique for (Freeman et al.), 103
line, tension on, in peripheral nerve surgery (Cliffton), 756
material, cotton as, in urologic surgery (Smith and Weaver), 827
Sympathectomy, early results of, in far-advanced arteriosclerotic peripheral vascular disease (Coller et al.), 30
patients who underwent; study of patients with thromboangiitis obliterans (Campbell et al.), 1008
results of actual, sympatholytic effects of Priscol, Etamon, and Dibenamine in dogs with (Marzoni et al.), 117
hyperhidrosis (Veal and Shadid), 96
total, hypertensive vascular disease associated with quadrilateral Raynaud's disease treated by (Leinwand et al.), 1034
Sympathetic ganglionectomy, lumbar, and aneurysmectomy; arteriosclerotic popliteal aneurysm (Linton), 41
nervous system, effect of removing portions of; human heart rate (Smithwick et al.), 727
neurectomy in Raynaud's disease, evaluation of (Felder et al.), 1014
Sympatholytic effects of Priscol, Etamon, and Dibenamine in dogs with results of actual sympathectomy (Marzoni et al.), 117

T

Technique, new, and guide for angiostomy (Dale), 810
surgical; thymectomy for myasthenia gravis (Clagett et al.), 852
Tendon repair, experimental, within flexor tunnels: use of polyethylene tubes for improvement of functional results in dog (Gonzalez), 181
Tension on suture line in peripheral nerve surgery (Cliffton), 756
Teratomas, primary, of lateral retroperitoneal spaces (Palumbo et al.), 149
Test, walking venous pressure, as method of evaluation of varicose veins (White and Warren), 987
Therapy, anticoagulant, complications of (Lilly and Lee), 957
streptomycin, in established wound infections (Pulaski and Connell, Jr.), 622
Thoracic duct, variations of (Van Pernis), 806
Thromboangiitis obliterans (Buerger's disease), study of patients with (Campbell et al.), 1003
Thrombophlebitis, phlegmasia cerulea dolens and gangrene associated with (DeBakey and Ochsner), 16
Thrombosis, venous, in lower limbs, management of recovery from (Homans), 8
and pulmonary embolism, prevention of, by electrical stimulation of leg muscles (Tichy), 109
prophylaxis and treatment of (Allen), 1
Thymectomy for myasthenia gravis (Clagett et al.), 852
Thyroid function, rate of conversion of administered inorganic radioactive iodine into protein-bound iodine of plasma as aid in evaluation of (Clark et al.), 331
malignant neoplasms of (Lange and Maclean), 862
Tissue resistance, diminished, to acid-peptic digestion; physiologic basis of operations for ulcer (Mayo, Jr.), 283
soft, extensive loss, traumatic iliac hernia with (Lewin and Bradley), 601
Tolerance, insulin, intravenous sugar, and water; corticoadrenal factor in hypertension (de Takats), 68-72
Traumatic iliac hernia with extensive soft tissue loss (Lewin and Bradley), 601
(mechanical) factor; physiologic basis of operations for ulcer (Mayo, Jr.), 282
spasm, factors affecting diameter of large arteries with particular reference to (Kinmonth et al.), 452
Treitz, ligament of, as barrier to intestinal intubation (Cantor), 673
Trigger finger produced by excessive heat (Engel), 659
Tube, Miller-Abbott, unusual complication of use of; jejunal intussusception (Dunn and Shearburn), 833
Tuberculosis, pulmonary, pneumonectomy for, in woman six months pregnant, followed by normal birth (Thompson and Bressler), 242
Tubes, polyethylene, use of, for improvement of functional results in dog; experimental tendon repair within flexor tunnels (Gonzalez), 181
Tumors, malignant, of pelvic girdle; hemipelvectomy (Ravitch), 199
mixed, of anlage origin (Halpert), 1046 *(E.)*

Tumors—Cont'd
primary, of jaw; excision of mandible for neoplastic disease (Slaughter et al.), 508

U

Ulcer, duodenal, gastric, and gastrojejunal, physiologic basis of operations for (Mayo, Jr.), 251
jejunal; physiologic basis of operations for ulcer (Mayo, Jr.), 300
Mann-Williamson; hormone preparations in treatment of Mann-Williamson dogs (Sandweiss and Saltzstein), 647
peptic, etiology of; physiologic basis of operations for ulcer (Mayo, Jr.), 269
United and ununited fractures, old, of patella (Paschall, Jr., et al.), 777
University Surgeons, Society of, 331-566
Ununited and united fractures, old, of patella (Paschall, Jr., et al.), 777
Urethra, construction of; repair of hypospadias with free inlay skin graft (Young and Benjamin), 394
Urinary incontinence, method for controlling (Swenson et al.), 405
infections, due to gram-negative bacilli, sulfamethazine in treatment of (Rutenburg and Schweinburg), 215
Urologic surgery, cotton as suture material in (Smith and Weaver), 827
Urology award, announcement, 721

V

Vagus, left; anatomy of nerves supplying common duct and proximal duodenum (Royster et al.), 413
and sympathetic nerves in control of human heart rate (Smithwick et al.), 740
Variables, biologic pressure, impedance gauging system for measurement of (Shafer and Shirer), 446
Varicose, normal, and postphlebitic extremities, venous pressures in saphenous system in (Warren et al.), 435
veins, walking venous pressure test as method of evaluation of (White and Warren), 987
Vascular disease, far-advanced arteriosclerotic peripheral, early results of sympathectomy in (Coller et al.), 30
Vascular disease—Cont'd
hypertensive, associated with quadrilateral Raynaud's disease treated by total sympathectomy (Leinwand et al.), 1034
Surgery, Society for, 1-108; 889-1043
Vein grafts, use of to replace defects of large arteries (Johnson et al.), 945
varicose, walking venous pressure test as method of evaluation of (White and Warren), 987
Venous and lymphatic stasis in lower extremities (Scott and Radakovich), 970
pressure in saphenous system in normal, varicose, and postphlebitic extremities (Warren et al.), 435
test, walking, as method of evaluation of varicose veins (White and Warren), 987
thrombosis in lower limbs, management of recovery from (Homans), 8
and pulmonary embolism, prevention of, by electrical stimulation of leg muscles (Tichy), 109
prophylaxis and treatment of (Allen), 1

W

Walking venous pressure test as method of evaluation of varicose veins (White and Warren), 987
Whipple's disease, or intestinal lipodystrophy (Copland et al.), 688
Wound, contaminated, delayed primary closure of (Morris and Martin), 616
healing and heparin, using heparin deposits (Bendix and Necheles), 799
infections, established, streptomycin therapy in (Pulaski and Connell, Jr.), 622
renal, experimentally contaminated, local reaction to oxidized cellulose and gelatin hemostatic agents in (Hinman, Jr., and Babcock), 633
stab, of heart, followed by temporary cessation of heartbeat with resuscitation by cardiac massage (Löken et al.), 745

X

X-ray media, compounds of zirconium for (Hunter et al.), 682

Z

Zirconium, compounds of, for x-ray media (Hunter et al.), 682
